### About This Content

### Additional Content

With the supporter additions come extra content!! We have more characters, more items, an extra department and more to come!

Don't buy this package just for the content alone, it's mostly about supporting us so we can continue making games. Thanks :)

### Buy a pizza for the devs

For the price of a pizza you can directly support our studio. We have big plans for our next game, and that means we need money so we can spend more time making games! We decided to make Wall Street Tycoon free so everyone can play it, but our studio needs some love so we can pay bills and buy groceries as we continue the journey to making great games. Purchasing this package will help make that dream possible. **THANK YOU** for your support.
